HOME TANDOORS

Tradition, portability and tandoori cooking at home

Home tandoors are designed for small parties and celebrations with family and friends. Their portable format allows use in suitable open environments such as roofs, parks, gardens and galleries.

EASY TO MOVE

Portable format for flexible use.

FAMILY FRIENDLY

Suitable for small gatherings.

LOW MAINTENANCE

Simple, practical home cooking.

HEAVILY INSULATED

Designed around insulated construction.

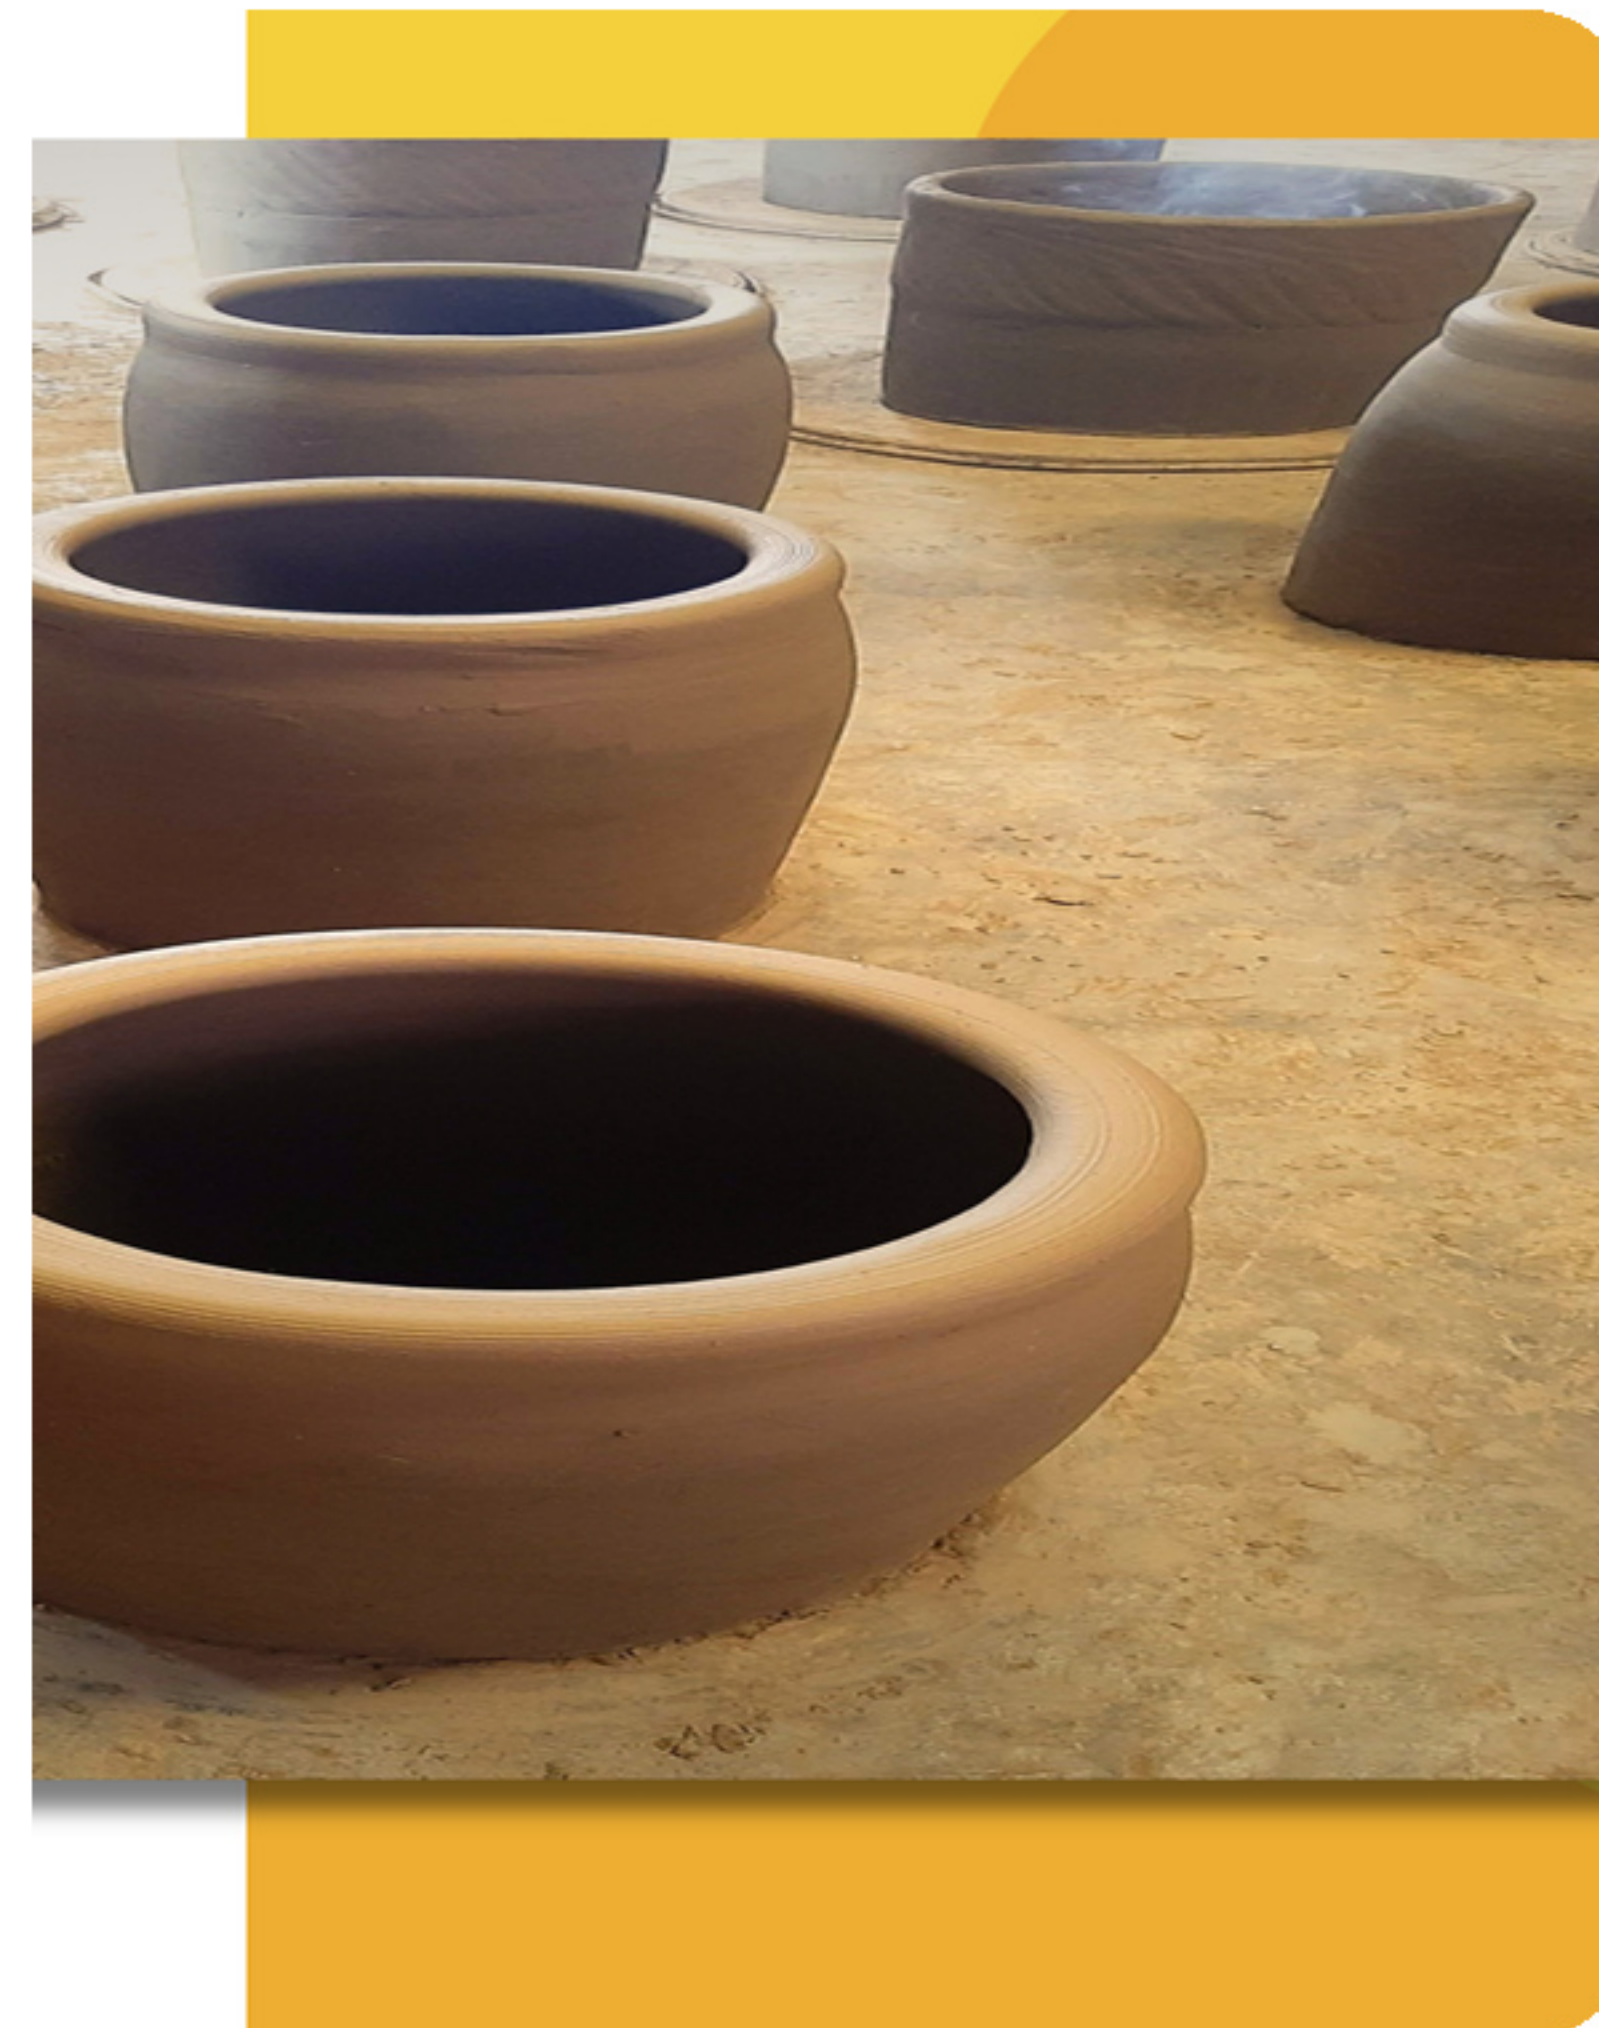

MULTIPLE SIZES

Different size options are available.

AUTHENTIC COOKING AT HOME **POWERED BY CLAY**

Every home tandoor is built around a strong clay core, handcrafted with care for durability and traditional tandoori flavour. The clay helps maintain even heat so rotis, naans and kebabs can cook with a characteristic smoky aroma.

Designed for families who value tradition and convenience, a clay-based core can bring restaurant-style tandoori cooking into the home.

MODEL 01

MS HOME TANDOOR

MS construction • home-use range

Model No.	Diameter	Height	Weight
MS-DTR-02	16"	22"	50 kg
MS-DTR-03	18"	28"	70 kg

EXPORT CATALOGUE NOTE

Specifications shown are based on the supplied product catalogue. Final packing dimensions and shipment configuration can be confirmed for each export order.

MODEL 02

SS HOME TANDOOR

Stainless-steel finish • home-use range

Model No.	Diameter	Height	Weight

The supplied catalogue describes wooden pallets/crates for packing the tandoor, providing protection during movement from one place to another.

PACKING APPROACH

- Protective wooden structure
- Suitable for handling and transport
- Export shipment configuration can be confirmed order-by-order

WHAT IS A TANDOOR?

A traditional high-heat cooking vessel

A tandoor is a cooking cylinder made of clay, with a heat source inside and thick, well-insulated walls. Food is placed through an opening at the top, which also serves as the chimney.

The heat source is commonly an open flame or coals. Bread can be baked by sticking the dough directly to the inner walls of the oven.

WHAT IS TANDOORI?

Traditional Indian open-fire cooking

Tandoori is a cooking method that has become synonymous with the food prepared in a tandoor. Marinated meat or paneer can be cooked over intense heat inside the oven.

Long metal skewers can be used to lower food into the oven, where the smoky, high-heat environment cooks the food until done.
